section 55.

"(1) The Central Government may, by general or special order, authorise the discharge of any of its functions under sub-section (2) of section 34 by an Electrical Inspector.".

STATEMENT OF OBJECTS AND REASONS

The Indian Electricity Act, 1910, deals with the supply and use of electrical energy in the country. The Act also prescribes procedure for the purchase and take-over of undertakings of private licensees and procedure for determining the purchase price.

- 2. With a view to discouraging theft of energy and tampering with meters and electrical installations, the provisions for punishment of such offences are being made more stringent. It is proposed to amend sections 39, 40, 44 and 46 of the Act suitably.
- 3. The Act, at present, does not contain a specific provision for taking compulsory possession of an undertaking where a licensee refuses or wilfully fails to deliver possession to the State Electricity Board, the State Government or the local authority. It is proposed to incorporate a provision for taking compulsory possession of an undertaking and to provide for suitable penalty for such refusal or failure to deliver possession
- 4. Sub-section (6) of section 6 of the Act does not provide for payment of interest on the purchase price of the undertaking for the period between the date of delivery of the undertaking and the date of payment of the purchase price. It is proposed to amend section 6 to provide for the payment of interest for the said period.
- 5 Section 7A of the Act provides that where an electrical undertaking is sold under section 5, the purchase price of the undertaking shall be the market value of the undertaking at the time of purchase or where the undertaking has been delivered before the purchase under sub-section (3) of section 5, at the time of the delivery of the undertaking, and if there is any difference or dispute regarding such purchase price, the same shall be determined by arbitration. It is proposed to amend this section to provide for payment of book value of the assets of the undertaking which is more realistic instead of the market value.
- 6. The other amendments proposed are minor and consequential in nature.
 - 7. The Bill seeks to achieve the aforesaid objects.
